Attention Mr. Stéphane Dufresne,

Re. Recommendation of RG Solutions for Modular Construction and Design

The Modspace experience in dealing with the RG team was extremely professional and well received. From the bid process to the final delivered product, the staff at RG were very thorough, highly knowledgeable, and very customer focused. The design and engineering process was very accommodating and organized around meeting the customer's requirements.

From a scheduling perspective all critical path milestones achieved target status and all budgets as identified met with all expectations and goals.

The attention to detail of the completed modules exceeded all expectations and Modspace truly looks forward to working with RG on upcoming projects.

We appreciate all the efforts that RG has taken with the recent Modspace builds.

Thanks,

A handwritten signature in blue ink that reads "Christopher Bilan".
