

200, 6th street Ouest, Amos, QC, J9T 2T5

Amos, July 10, 2015

The Outland Camp Company does business with RG Solution since 2005 for the purchase of prefabricated modular buildings used for rental or for sale in remote areas. Whether it is for site office units, mobile toilet, kitchen, dorm or camp, RG Solution has always responded to our needs in every detail and with remarkable efficiency.

We often use RG solution for the concept and design of our personalized projects and we are very satisfied with their professionalism and expertise. Since the construction of their new factory, we have noticed that RG Solution is able to realize larger projects and with unmatched control and quality assurance. Project tracking and logistics of delivery to the site are provided by an experienced team, which allows us to complete work more quickly and at lower cost.

To Outland Camp quality, flexibility and customer satisfaction has always been our trademark and I can say that RG Solution has enabled us to increase our market share.

Thank you to the RG Solution team for their dedication to the success of our projects.

Sincerely,

A handwritten signature in blue ink, appearing to read "Ricky Boulanger", is written over a horizontal line. The signature is stylized and extends to the right.

Ricky Boulanger

Vice-President of Sales, Eastern Canada
